"No greater service can be done in the cause of good letters than the extensive dissemination of these standard compositions. They embrace the best models of style in the English language."

"Their claims, indeed, are very great to the respect and attention of the reading world. Such men as Steele, Johnson and Hawkesworth were among the first writers of their time.

"The Tatler," The Rambler, "The Guardian, "The Spectator," The Adventurer, written by such men as Steele, Johnson, Addison, Hawkesworth, are standard compositions—models of good old English. So varied and often ammsing are they so certain to cultivate a pure style that we hardly know how a family library than this edition of these Essays."

Edited by his Grandson,

CHARLES FRANCIS ADAMS.
10 volumes, 8vo. \$22 50. Volumes 1 and 10 just published.

CHARLES FRANCIS ADAMS.

10 volumes, 8vo. \$22.50. Volumes I and 10 just published.

"Of the writings of our Revolutionary worthies, none have been presented to the public with as much ability, care and good faith as those of John Adams. The main portion of the labor devolved on Charles Francis Adams, who has devoted to it several years, and has set an example of thorough research and sound judgment, which cannot be too highly commended."

It is a work for the Stateman to read and study, a work especially suited to young men—a work with which we can well adord to identify our national reputation."

Puritan Recorder.

"Every student of American history, American laws, usages and institutions should make himself acquainted with these papers, containing as they do the reflections of a mind of great comprehension, deep sagacity and extensive learning on the finedamental principles of government."

"One of the most valuable contributions yet made to American history."

"Such a contribution to American history we have not had before, except in the collections of the Writings of Washington and Jedieron. Probably in literary value and interest this will surpass them both."

"A contribution to the materials of American history not second in importance and interest to any of the great publication of the which it is most obviously to be compared.

"The completion of this voluminous work, containing a full collection of Mr. Adams's writings, is a matter of congratulation to every student of American history. The editor has performed his responsible task with dignity, intelligence and an evident aim at rigid impartiality. Many of his views in regard to the comparative position and merits of eminen American statemen are, doubtes, open to controversy, but no man can call in question the thoroughness of his research, and the clear-inal freentry of our national existence, which come within the scepe of his biographical labors. The publishers, we need hardy add, have brought out these volumes in the style of substantial elegance w
